EXPERIENCE

- ✚ 24 Articles Published for **Dimensionless Technologies**, a data science training startup that needed to boost its Google SEO and produced multiple high-quality articles all between 1500-3000 words. All the articles are available at the following link: <https://dimensionless.in/author/thomas/>
- ✚ 18 articles Published for **Rejolut Technologies** (ghost-written, every article, between 2000-5000 words, so I cannot give a direct link, except to one which was published on **HackerNoon** for which I have the explicit permission of my employer to include in my resume: [Direct Link \(to article in HackerNoon\)](#)).
- ✚ I have also published several articles on **Medium** and **HubPages** other than the Dimensionless articles (republished with permission from them). The articles are mostly scientific, technology, musical, or personal. The links to view the articles are <https://medium.com/@thomascherickal> and <https://hubpages.com/@thomascherickal>.

ACHIEVEMENTS

- ✚ I was awarded the prestigious **NTSE** (National Talent Search Examination) scholarship while in school (**Chettinad Vidyashram, Chennai**). This is a national level examination for **exceptional mathematical and scientific talent**.
- ✚ I wrote the **ETC** (Education Testing Centre, Australia, conducted worldwide) exams for English, Math, and Science twice in school. I always scored at least a distinction in all every ETC exam I wrote, and I never failed to get **High Distinction** (above the 90th percentile) in **English** in the testing scores worldwide in three attempts. My rank for English in the website www.youth4work.com profile has always been above the **99.8th Percentile**.
- ✚ Led an eight-member team to 6 overall Computer Science Symposium victories, with over 30 individual/team prizes in my UG, **BCA - Patrician College of Arts and Science**. Was also awarded the **Best Outgoing Student Award**.
- ✚ I did the **M.Sc. CS** course from **Loyola College, Chennai**. **Helped my HOD with his M.Tech. thesis**, which was on **genetic algorithms**, a field I had studied independently in my UG along with **artificial neural networks**.
- ✚ **I had a choice** between writing about technology and working in technology after my graduation. **I am also a musician** (gospel violinist and western classical choral bass (singer) acappella). I decided not to limit my ambitions and dreams and to go for both if possible. I like to think that this combines the best of both worlds.
- ✚ Got a rank of **2/19736** candidates in the **TANCET** exam scoring **66.33**. My counseling seat number in the Anna University counselling process was **#1**. (Roll Number 752469, 2006-2007)

	MUSIC	
--	-------	--

- + I've played the **violin** since 1998. I now play in prayer meetings, churches, conventions, and youth meetings. I have performed and sung in numerous **concerts, weddings, masses, feast-day masses and funerals**.
- + I sing **acappella choral bass** and have been singing in performing western classical music four-part harmony choirs since 2007. I have sung for the **John Millns Chorale**, the **Handel Manuel Chorus** and the **Madras Philharmonic and Choral Society (The MPCs 2020)**.
- + I am a member of the **Jesus Youth** movement and am currently in Phase 3 formation (Emmaus). We have had weekly prayer meetings when I was a core team member since 2012. I am still a core team member and we now have an **online prayer meeting** weekly on Zoom.
